Mohammed Sawkat

Software Engineer - Front End Developer

168-36 88th Ave apt 1F
Jamaica, NY, 11432
(929) 283-8000
mosawkat@gmail.com

PROJECTS

Personal Website — Personal Project

https://mosawkat.github.io/personal_website/

Used to showcase who I am, my passions and ongoing projects, different ways to contact me and view my resume and learn more about me.

Sawkat Clothing — *E- Commerce Website*

https://mosawkat.github.io/Tech_Website/

Showcase my abilities to create an e-commerce site about selling t-shirts, customer reviews, a full catalog of items sold, account page to track and view orders, and a cart to show the checkout process.

Tech Website— *Current Project*

https://mosawkat.github.io/Tech_Website/

The goal of this website is to simulate how a tech company would announce their new products on their webpage, with images and descriptions. Then the user also has access to any news the company publishes, their personal account, and a cart to simulate a shopping experience.
